Title: ECOS Draft Paper: Pathways for Alternative Compliance Methodologies

Body: As mentioned on our workgroup call today, ECOS asked for EPA's feedback on a draft paper titled Pathways for Alternative Compliance Methodologies. The paper primarily deals with methane detection methods/technologies and how regulatory programs could evolve to incorporate the methods/technologies. ECOS sent us questions to consider ahead of a conference call scheduled for Monday, 12/3 to discuss our responses with the authors (i.e., ECOS, EDF, states).

We plan to send ECOS suggested edits/comments on the draft paper as well. You are welcome to provide comments on the paper by COB, Wednesday, 12/5. Please only use the SharePoint version to record your suggested edits/comments.
